DETAILED ACTION

Receipt is acknowledged of the amendment filed 10/02/2008.

The rejection under 35 USC 120/103 is withdrawn in view of applicant's amendment.

The rejection under 35 USC 112, first paragraph for written description is maintained.

Response to Arguments

Applicant's arguments filed 10/20/2008 have been fully considered but they are not persuasive.

Applicant has pointed out that the claims are original and are therefore not new matter. Since this is the case, applicant should amend the specification to reflect the same values set out in the claims in order to make the specification and claims commensurate. Doing so will remove the rejection under 35 USC 112, first paragraph for written description.

The following is a new rejection of the claims:

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-37, 84-94 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has amended the claims to include concentration ranges which are not specifically set out in the originally filed specification. As such, they are considered new matter. Correction is requested.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
